**Subject:** Proposal on para 13 - Mexico - Zero Draft

---

Dear Dizery,

Please take note of the proposal of the delegation of Mexico to paragraph 13 as follow:

The delegation of Mexico would like to consider in the proposed targets a core indicator that provide us understanding of the impact of continuity of operations and businesses plans, in order to measure resilience, taking into account the importance of reestablishing basic services such as energy, water, medical services and the prompt reactivation of the economy in the aftermath of a disaster.

Kind regards,

Antonio - MEXICO.
