- Financial, Investment and Trade institutions
- Social groups, volunteers and civil society and faith-based organizations
- Businesses, professional associations, private sector financial institutions and philanthropic foundations
- Academia and Research
- Media
- EU Floods Directive

Purpose

“Strengthen disaster resilience for sustainable development”

Strategic Goals

These should become the main organising logic

Goal I

Preventing and minimising risk creation

Goal II

Reducing existing risk

Goal III

Managing residual risk

Priorities for Action I Proposed paragraphs

- Knowledge
- Governance and legislation
- Planning and Investment

Priorities for Action II Proposed paragraphs

- Knowledge
- Governance and legislation
- Planning and Investment

Priorities for Action III Proposed paragraphs

- Knowledge
- Governance and legislation
- Planning and Investment

The above chart reflects the Dutch proposal for amendments on the draft chart of the pre-zero draft of the post-2015 framework for disaster risk reduction. NL would like to stress that the above elements merely reflect amendments within the original structure of the DRAFT Chart of the pre-zero chart of the post-2015 framework for disaster risk reduction. This means that NL proposes to keep the original structure in which amendments will be made on the Strategic Goals and the Priorities for Action, including the division in regional/global and national/local levels.
